I just wanted to communicate my shock, disbelief, and outrage at the resolution of the Microsoft antitrust case. It was clearly proved that Microsoft used monopolistic practices to put competitors out of business. Let me remind you that the Judge ruled AGAINST Microsoft. Your proposed settlement will give them a stranglehold on the education market and FURTHER entrench Microsoft as a monopoly! This isn't justice or a settlement it's a JOKE! Microsoft will be laughing all the way to the bank!
